James Eggers
Laboratory Director
Keystone Laboratories Inc - Centerville (MO Lab# 300)
205 E Van Buren St
Centerville, IA 52544

Dear James Eggers:

The Missouri Department of Natural Resources has received an application for certification from your laboratory to perform bacteriological analyses. Based upon the review of this application and the recommendation of the Laboratory Certification Officer with the Missouri Department of Health and Senior Services, the Department hereby reciprocally certifies the Keystone Laboratories Inc of Centerville, Iowa under the provisions of the Missouri Safe Drinking Water Regulations to perform bacteriological analyses for public water systems in the State of Missouri for the following parameters:

Total Coliform *E. coli* Heterotrophic Plate Count

Enclosed please find a certificate of approval and a certified parameter list for your laboratory. The certified parameter list references the parameters, methods of analysis, and personnel that the Department has approved for your laboratory. Your Missouri certification will expire on December 01, 2024. This reciprocal certification is contingent upon no changes of the approved methods, analysts, or equipment, the laboratory's annual demonstration of proficiency, and maintenance of certification from the primary certification authority.

Thank you for your efforts to comply with Missouri's laboratory certification requirements. Should there be any changes to your Iowa certification status, please notify this office within 30 days. Direct any notifications or inquiries related to the approval to Rebecca Pugh, who may be reached at P.O. Box 176, Jefferson City, MO 65102, or by telephone at 573-751-1077.

Sincerely,

WATER PROTECTION PROGRAM

David J. Lamb, Chief
Public Drinking Water Branch
